

Nexus Access

If you are a paying client we can grant you access to our nexus server, your credentials are as follows :

username: <TO BE PROVIDED>

password: <TO BE PROVIDED>

Maven settings file

Please add the following to your maven settings.xml or add these credentials to your nexus server, please replace the **username** and **password** below:

```
<servers>
  <server>
    <id>chronicle-enterprise-release</id>
    <username>username</username>
    <password>password</password>
  </server>
  <server>
    <id>chronicle-enterprise-snapshots</id>
    <username>username</username>
    <password>password</password>
  </server>
  <server>
    <id>third-party-release</id>
    <username>username</username>
    <password>password</password>
  </server>
</servers>
```

Nexus UI

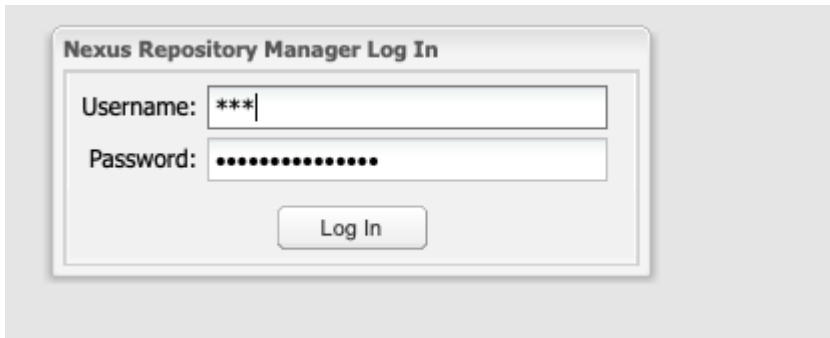

You won't have access to our nexus UI, but to view the artifacts you have access to in a web browser navigate to:

<https://nexus.chronicle.software/content/repositories/releases/>

you will first be asked to authenticate, click on **login**

and enter your username and password.

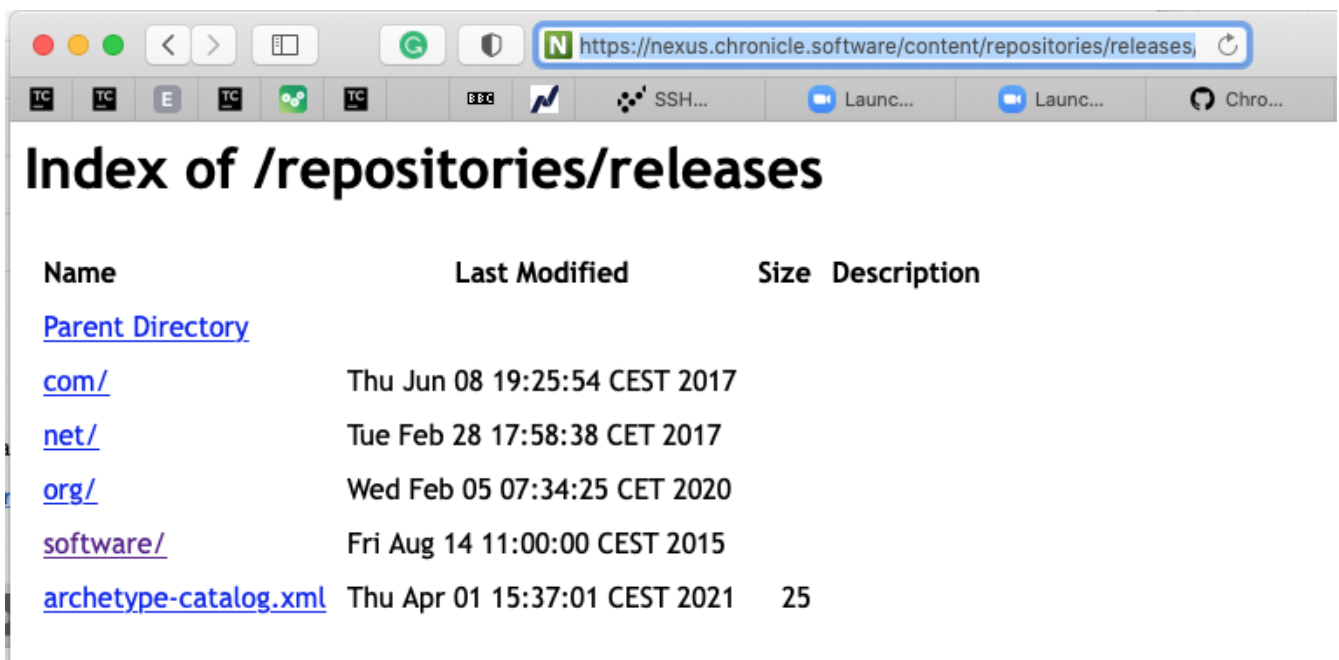

A screenshot of the Nexus Repository Manager Log In dialog box. It has a title bar that says "Nexus Repository Manager Log In". Inside, there are two input fields: "Username:" with the text "***" and "Password:" with a series of dots. Below the fields is a "Log In" button.

once you have authenticated in, and in **the same browser session**, please go to the following URL:

<https://nexus.chronicle.software/content/repositories/releases>

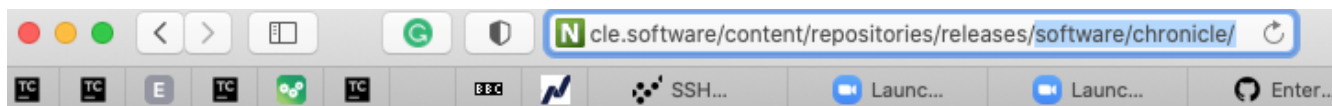

from here you can see what artifacts are available.

A screenshot of a web browser window. The address bar shows the URL <https://nexus.chronicle.software/content/repositories/releases>. The page title is "Index of /repositories/releases". Below the title is a table with columns: Name, Last Modified, Size, and Description.

Name	Last Modified	Size	Description
Parent Directory			
com/	Thu Jun 08 19:25:54 CEST 2017		
net/	Tue Feb 28 17:58:38 CET 2017		
org/	Wed Feb 05 07:34:25 CET 2020		
software/	Fri Aug 14 11:00:00 CEST 2015		
archetype-catalog.xml	Thu Apr 01 15:37:01 CEST 2021	25	

I suggest click on **software** then **chronicle**.
